stopping at the St. Cloud hotel after the performance, and when she was ready for bed she made the unwelcome discovery that she had left her satchel in the dressing room at the hall. The company was an unusually large one and as there was not enough dressing rooms on the stage, the Mayor's office was used by a large number of the ladies of the company. Miss North was one of the number and she thought that she had left the satchel in the room. She hurriedly dressed and going to the office of the hotel, a policeour cigars. We will prove our words man was summoned who went with her to the building, but found nothing of the satchel. Miss North was very Putnam much worried as it had contained her Street keys, and many other articles which she Drugstore, could not do well without. She remarked that she knew she would have oad luck just because there were thirteen girls who dressed in the room and thirteen was always bad luck for her.

"1492."

Newspapers are queer sometimes in what they say of things-especially of the stage and the capabilities of its people. We are reminded of this fact by some of the notices which 1492 got in Cinci. Why they treated the show as they did, we cannot imagine; for to the notion the very large house which greeted it here last night, it was an unbounded success.

The company is a large one, and its make-up is chock full of talent of a kind to make an audience feel extremely kind toward it. There were no dreary spots or people in the play. Stuart is a wonderful fellow in his role of Isabella. He sings like a lark,

and he fits into the part of the "Daisy Queen" like a hand into a glove. His support is excellent, especially Miss Kent, Mr. sample and Mr. Terry.

Elected for the Fourth Time.

Mr. J. A. Longfellow was re-elected for the fourth time to serve as school director in this school district. He did not have an opposing vote. Having business enough to keep several men busy he always finds time to give his share of interest to educational matters. Being unanimously re-elected after serving nine years on the board plainly shows how well the public appreciate his work. Someone asked him once why he wanted an office in which there was not a dollar for him. He replied that it was thousands of dollars to him; he meant that he had children going to school. Let us have more school officers in hte country like Mr. Longfellow.

The Urania Entirely Too Many for the Oueen City.

The steamers Urania and Queen City had a fine race from Proctorville to Gallipolis last night. Andy Archibald came up on the Urania from Crown City and says it was very interesting and exciting. Both boats had a good number of passengers and the enthuslasm for their respective boats rap high. They left Proctorville at 7:15 and when the Urania landed at Crown City, the Queen overtook her. From there up to Glenwood it was neck and neck, when the Urania's doctors wouldn't work, and the Queen went by. The Urania soon got all right, however, and two miles abov Glenwood passed her in mid-stream and kept ahead while the Queen dropped further and further to the rear, the Urania getting to Gallipolis fully a mile ahead of her.
